WE WILL HELP YOU FROM THE BEGINNING TO THE END

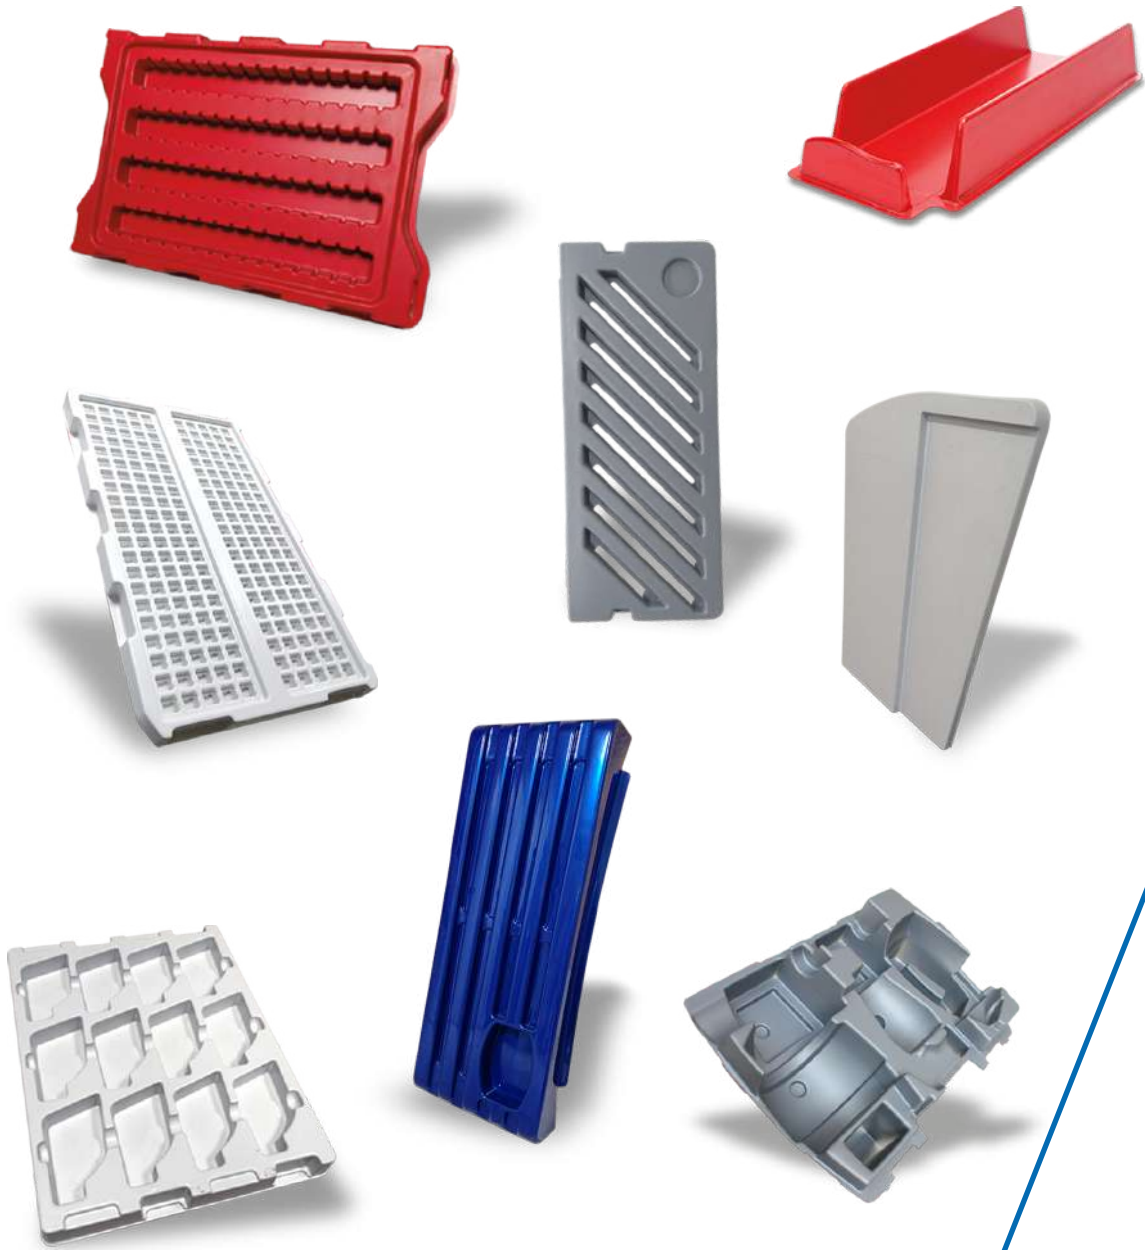

Our job is to provide an integral service, offering solutions according to your specific needs.

Our personnel are professional, also we have **high-tech equipment** that enables us to perform, from the beginning to the end our customer's requirements.

- Conceptualization
- Development
- Models and Prototypes
- Manufacturing
- Distribution

CUSTOM THERMOFORMED PRODUCTS

We supply to companies that require high precision packaging to place insert electronic components, metal parts or auto parts, household appliances, among others.

Exceptional quality and expert engineering assistance, developing the perfect solution for manufacturers across industries.

Custom thermoformed
for auto parts like pieces
for car trunks and
armrests.

We manufacture diverter
trays, walls and divisions,
pallets, containers and
louvers for the refrigeration
and air-conditioning industry.

Point of sale marketing
materials.

OUR INDUSTRIAL PLANT IS DIVIDED INTO 5 AREAS

Industrial and
graphic design

Thermoformed
center

Cutting center and
die-cutting

Print center

Finishing details and
distribution

INDUSTRIAL GRAPHIC DESIGN CENTER

Engineers specializing in 3D design and modeling using systems such as Rhino Cam and Power Shape, which are complemented with plotters and the 5-axis CNC router (300x150cm) performing some renders, model plans and prototypes, using these resources that are the base to develop the project.

We also use wood, resin and aluminum molds.

THERMOFORMED CENTER

We have 6 thermoforming machines that allow us to manufacture from:

MEASUREMENTS
90 X 60 CM

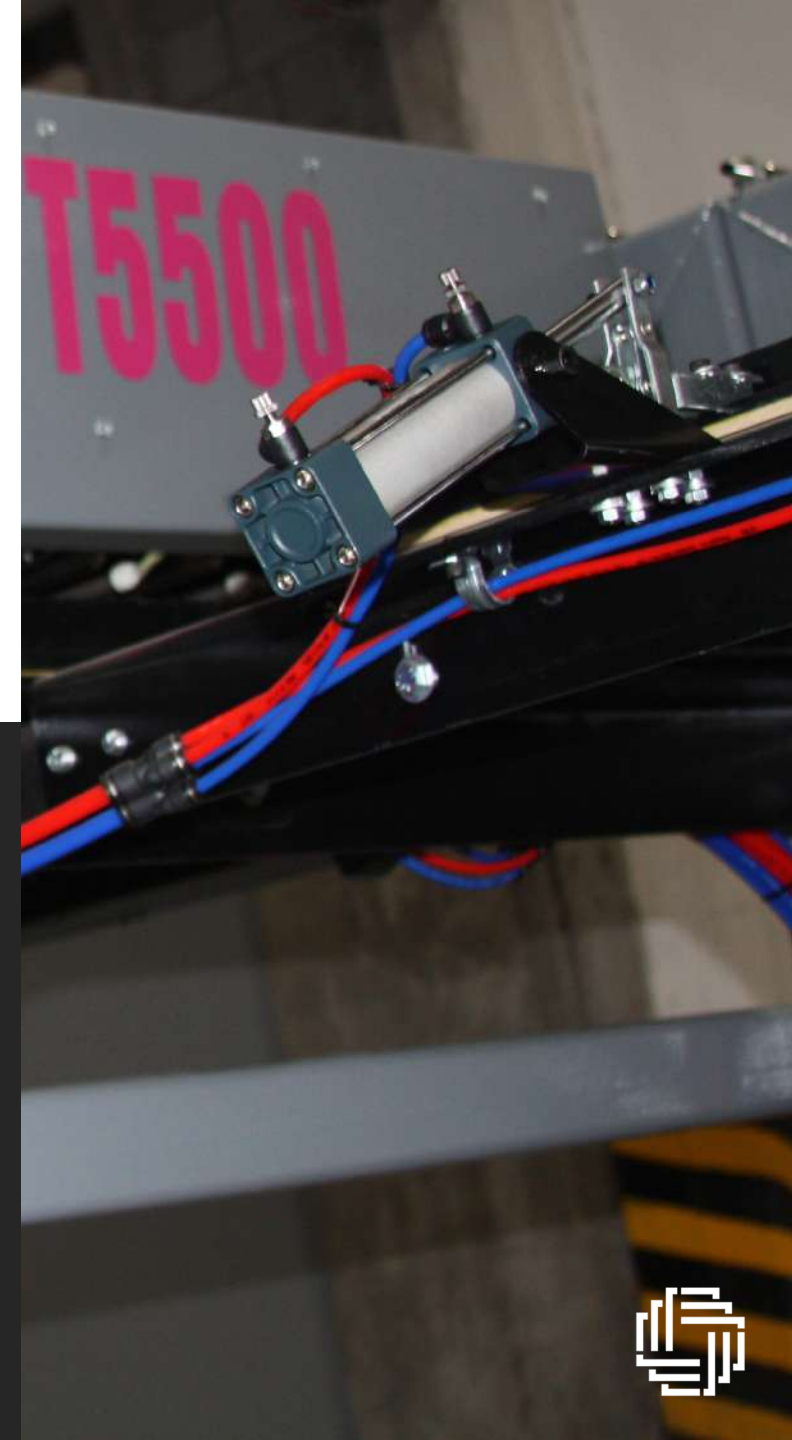

TO
200 X 300 CM

GAUGES
.020 MM

TO
8 MM

MATERIALES

- PS - POLYSTYRENE.
- HIPS - HIGH-IMPACT.
- POLYSTYRENE.
- PP- POLIPROPILENO.
- PVC.
- HOPE - HIGH-DENSITY.
- ABS.
- PET.
- ACRYLIC.
- POLICARBONATE.

CUTTING CENTER AND DIE-CUTTING CENTER

Our company has 6 cutting and die-cutting machines, in which the material is separated in patterns before or after printing and thermoforming.
